# SAEE BAGUL

Full Stack Java Developer
Saeebagul08@gmail.com | +91-9359914522 | Pune, Maharashtra | linkedin.com/in/saee-bagul-0a8442289

## PROFESSIONAL SUMMARY

Full Stack Java Developer with hands-on experience across Java, Spring Boot, REST APIs, and front-end technologies (HTML5, CSS3, JavaScript). Internship experience building responsive, user-facing web modules and integrating backend logic with SQL databases. Strong foundation in OOP and Hibernate, with a track record of delivering functional features in fast-paced team environments.

## TECHNICAL SKILLS

**Programming Languages:** Java (OOP, Collection Framework, Exception Handling), JavaScript
**Front-End:** HTML5, CSS3, Bootstrap, React
**Back-End:** JDBC, JSP, Servlet, REST APIs, Spring, Spring Boot, Hibernate
**Database:** SQL
**Tools & Version Control:** Git, GitHub

## PROFESSIONAL EXPERIENCE

**Java Developer Intern — Next In Soft, Nashik** Feb 2026 – Jul 2026

- Built backend logic in Java (Spring Boot) for an e-commerce and content-based web application, handling request routing and dynamic page rendering.
- Integrated a MySQL database using JPA/Hibernate, supporting CRUD operations for efficient data storage and retrieval.
- Collaborated with the team to connect backend services with existing front-end templates, ensuring smooth data flow across application features.

**Web Developer Intern — eSmart Solutions, Nashik** Dec 2023 – Jan 2024

- Built a responsive company website using HTML5, CSS3, and Bootstrap, applying Flexbox and CSS Grid layouts with animations.
- Optimized images and page assets to improve load times and overall site performance.

## PROJECTS

**Clinic Appointment System**

- Developed a RESTful backend using Java 17, Spring Boot, Spring Data JPA, and MySQL, with JWT-based authentication and role-based access control for Admin, Doctor, Receptionist, and Patient users.
- Implemented double-booking prevention using row-level locking and database unique constraints, and scheduled jobs for automatic no-show slot release and email appointment reminders.
- Managed schema migrations with Flyway, documented APIs with Swagger/OpenAPI, and wrote JUnit 5 and Mockito unit tests.

**Android-Based Carpooling System**

- Built a mobile app enabling users to offer or find rides, featuring real-time tracking, in-app communication, and secure authentication.
- Integrated Google Maps API for navigation and Firebase for backend services to reduce traffic congestion via ride-sharing.

**Travel Website**

- Designed a responsive travel booking website using HTML5, CSS3, Bootstrap, and JavaScript, integrating APIs for real-time flight and accommodation data.

## EDUCATION

**Bachelor of Engineering in Computer Engineering** Dec 2021 – Jun 2025
Savitribai Phule Pune University

**HSC (12th), Science** Jan 2019 – Feb 2020
Maharashtra State Board, Pune

**SSC (10th)** May 2017 – May 2018
Maharashtra State Board, Pune

## CERTIFICATIONS

- Java Full Stack — Profound
- Cloud Computing — NPTEL
- Big Data Computing — NPTEL
- Angular

## POSITIONS OF RESPONSIBILITY

**Team Leader — College Tech Fest**

- Led a team in organizing a college tech fest, overseeing planning, coordination, and execution of events, contributing to its successful completion with over 200 participants.
